The Simpsons: Hit & Run has just received a mod that combines all of its locations into one seamless open world, thanks to the talented folks at Donut Team. This mod is only compatible with The Simpsons: Hit & Run.

When you load a new save or continue the game, the previously created locations will be destroyed and a seamless open world will appear in their place. In this mod you can go explore the various locations of Homer, Bart, Martha, Homer and Milhouse. On the map you will find various buildings and caves such as a cookie factory, a nursing home, a car factory, and of course a car factory.
