Get ready to break free from the limits of the traditional CAD workflow: in Archicad, you don't sketch on paper and move objects or changes. To ensure the best possible user experience and to allow access to the full functionality, Archicad is available as a free download. Today we are introducing the latest version of Archicad, and it's amazing! If you want to learn how Archicad helps you increase the quality of your projects, you'll love it. Get a free trial. We're offering you a new, improved version of Archicad — we believe that ArchiCAD software should be beautiful, intuitive, and easy to use. ARCHICAD gives an end-to-end BIM workflow for both architects and companies: from design, documentation, planning, and coordination to design review, delivery, and management. A super-fast, easy-to-use tool for architects, designers, and urban planners. ArchiCAD V7 is the fastest and easiest to use BIM solution available. BIM for architects is a BIM solution for the common user. We have designed ArchiCAD to make it easy to draw, see, and manipulate the data of your projects. This video is a preview of what you'll learn in the ArchiCAD 2017 training. In our new user's guide, discover how to work with a forest cabin in just 15 minutes! Now you can create your BIM model in minutes rather than days. With full project management integrated into the BIM model, you can deliver high-quality building information and full documentation. Learn to use BIM for architects in this comprehensive ArchiCAD training course. With BIM in Archicad you can: Create a BIM model using ArchiCAD. Convert files to BIM using ArchiCAD data tools, such as Mathcad, Revit, InVesalius, RemObjects, Digital Assets, and others. Plan and coordinate 3D models of your projects with BIM object groups. Make changes to your BIM model with ArchiCAD. Share your models with others using ArchiCAD. Apply finishing touches to your projects with standard ArchiCAD templates and tools.
