0.1.1.0 Review AtFinger
Your Name: Your Email
(not published): Your
rating: Your Review: At
Finger is a terrific
timesaver which you will
use hundreds of times a
day to access your most
often used folders,
applications and favorite
web sites. With AtFinger
you can easily define
shortcuts key to access
quickly to Folders, Web
sites or any application.

To define a shortcut key you can use any combination with Ctrl, Alt, Shift or the extended Windows key and all others keyboard keys.

AtFinger is a tray icon application. When running, AtFinger is displayed near the Windows clock. You can define any number of shortcuts key. Shortcuts key are available from anywhere.. When you define a shortcut key, you

can associate a short name. This short name will be added to the popup menu available from the tray icon. At any time you can remove or change a shortcut key.

Atfinger is loaded at startup. You can pause a shortcut key at any time, but the target can be accessed through the tray popup menu.
