
Elden Ring Patch full version SKiDROW [+ DLC] PC/Windows 2022

Once upon a time, there was an empire. King Tierno created the Elden Ring Empire and started his legacy of benevolent rule. But somewhere between civil war, tragedy, and betrayal, some wicked people seized the capital and the throne of king Tierno. They assassinated and stole his beloved daughter, the Princess Almyra. The forces of justice,

unbound by elitism or imperialism, delved to the small town of Teru on the edge of the empire to find the Princess Almyra. In the midst of the chaos, a young man named Dierus was killed by the usurpers of the empire and thrown into a deep canyon. Awakening before his death, Dierus, a forgotten orphan, was granted a crown by god Tierno, and was blessed with an amazing gift: The ability to draw the will of the gods into his body. It was this godly gift that allowed Dierus to venture on a quest to save the princess. Together with an orphaned boy named Nimbus, and a young woman named Juno, they set out into the Lands Between. In the fantasy land of Zora, they will grapple with the ethics of good and evil.
