ELDER DRAGON Lumultar, Dragon Elder Lumultar, Dragon Elder Deep in the Darkness Dekatan is visiting a shop. Suddenly, a clumsy man bumps into her. The angry Lumultar does not forgive him and starts attacking him. When the man hits her, the man's eyes shine and Lumultar is surprised. "This is..." The man holds a katana in his right hand. The light from the katana lights up the darkened, empty space. Lumultar's eyes widen, and she backs away from the man. When the man says that he is an Elder Dragon, he is pushed out of the darkness. Dekatan cries out. She wants to get closer to the Elder Dragon's power and to have another conversation with Lumultar, and she rushes forward. Lumultar is enraged. "What do you want?" Lumultar grabs Dekatana. She is shocked. "You...! I'm a god." Lumultar and the Elder Dragon are back in the Genesis Plateau where they first met Dekatana. Dekatana demands that they power up, the phrase 'power up!' echoes throughout the plateau. "Okay, I understand." In the Genesis Plateau, Lumultar asks a question. "How much do you want? I'll give you all the power in the world!" "How much power can you give?" Dekatana asks a question. In order to have all of the power in the world, Lumultar must obtain the Blue Fire. In the Genesis Plateau, Lumultar says, "Very well, I'll try." Lumultar changes her appearance, and appears in the form of a large, frightening Elder Dragon. "Who are you?" Dekatana blinks. She is blown away by Lumultar's appearance. Lumultar looks at Dekatana, and her face is completely red with rage. Lumultar says, "I'm Lumultar, and I will beat you up now. I'll never forget your hands, I will show them to the next Elder Dragon." "Why are you here?" Dekatana asks. Lumultar

### **Features Key:**

An Action RPG in a Decidedly Fighting Style An action RPG genre that is firmly rooted in a fighting game that features weapons and spells, but combines it with a sword-and-shield action. You are led by divine guidance for the purpose of fighting, and can freely decide the course of battle. When getting out of tough situations, NPCs can assist you, and use their own strengths to help you in battle.

The action RPG's core could be greatly improved if the magic system was different. A bunch of animations are not tied to the things they represent, which puts a great burden on the target, and makes the world feel lifeless. Many PC's don't have the horsepower to run the game just on a television or PC screen, especially on 4K. Also, you have to choose from yellow or red dots, which are actually more about rendering the world instead of the sub-class system. The graphics are very good for PS4, and could be good for PC if the quality was boosted.

#### **What's new in Elden Ring:**

The story begins in the Lands Between. The Story of Elden Ring warily begins with a young man's quest to obtain the sword that was the exclusive property of the first Elden Lord and whose name was converted into a "name of a god." The "Endless Might" Sword was forged to serve the first Elden Lord. When the sword was passed to the second Elden Lord, he acquired its power, and created five divisions in the Lands Between. This noble sword transformed mankind, and the world increased threefold. However, the first lords of the sword are no more, and the weapon is no longer wielded by Elden lords. Tarnished with the power, the sword is now forged by the champions of the Lords' world, known as the Dragon Knights. It has been passed down to the Dragon Knights' descendants, and the sword has become tainted. Even the descendants of the Dragon Knights are now capable of wielding the sword. No one dares to hope for a possible restoration!
