What's new in Elden Ring:

CYCLE OF CUTTING EDGE Until now, there has not been a game in which you can live as a swordswoman and a mage. In the sequel to the smash-hit fantasy action role-playing game, **TORN**, you take on the role of a woman with light blue hair, descend the slope of the Royal Palace, and meet Aenea, Mana's sister. Aenea will help you return to your mother's side - your ancestral home where a conspiracy of the nobles is unfolding. Bear witness to the destruction that the house of the crafty sword wielder, Xuan Liu, has caused. While saying nothing, Xuan and his followers mercilessly cut down innocent people. On the top of the slope, you engage in battle, and finally reach Sina's path that leads to a land free of magic. As a magic caster, you must wield a "Fireball Magic" to oppose Xuan and end his plans, while also involving yourself with an ordinary soldier and a kind-hearted older woman. Your decisions will change the fate of the entire country. This is an online RPG where you continuously play with others. As you clear side quests, talk with other players, and participate in various events, you will forge friendships and savor the dramatic actions of other people.

TORN--a game that captivates every kind of gamer. Even if you have never set foot in a virtual world, you can easily get along with the person next to you just by looking as you choose from among three beautiful voices. And since **TORN** is a soft game, you can enjoy the game with your children or other family members, so it is an ideal family game.
