A: I can't reproduce your issue:  
(1) I just opened your pfx with  
Adobe Acrobat and chose Save As  
I got no "Password required"  
dialog (2) I then opened the file  
directly with Windows Powershell  
ISE, chose Set-Content -Value  
File.pfx -Encoding Byte -Path C:\W  
indows\System32\MacOSX\ole32.

---

dll Again, no dialogs I suspect that the error is related to the password, but then you are using File.pfx without opening, so I don't get why a password would be needed in the first place, which is why I now ask, if you are sure the password is correct.
