Career Mode You're a football pro, now what? Career Mode can track and analyze your play over your career. Each season offers new challenges based on historical competitions, and will be challenging enough to keep you motivated when you're constantly improving. The best players in the world showcase their talents, and mastering the game means possessing the precise skill-set to unlock them, while challenging techniques and unique attributes allow you to come up with different strategies. The goal in Career Mode is to win the UEFA Champions League, making the game as realistic and immersive as possible, while analyzing and improving your style of play. You'll have the opportunity to take control of one of 10 legendary players throughout your career, and improve your unique attributes and traits to become one of the greatest players in the world. Tactics For the first time, gameplay may deviate from the comfort zones of defense, pressing and possession-based play to control the match with faster-paced, counter-attacking actions. Direct Control Each of the 10 Career Mode players has eight unique attributes and an array of groundbreaking new game mechanics to create unique ways to play. Possessing great technique is only half the battle in FIFA, because the other half depends on the mind of the player. With the introduction of Direct Control, set-pieces, in-depth ball control and anticipatory vision, real football can be experienced again. Set-pieces The introduction of set-pieces has given players the ability to control and set-up to score in the most critical moments in the match. Power plays can be used to overload an opponent's defense, or the skill of the set-up, the angle of the pass, the speed of the shot and the tactical knowledge of the opponent will affect the outcome of a match. Ball Control Probing runs, overloading runs, sprinting, cutting, dribbling, and passes all improve your control of the ball. Analyzing the patterns of the opposition allows for new tactics and moments of pressure on the opposition defense. Knowing when to run and when to pass, dribble or dive is essential for the game's speed. Visible player intelligence - Natural player intelligence is improved due to the introduction of Visible Player Intelligence, which shows players running patterns, dribbling their way to the ball, passing the ball, receiving the ball and performing all the actions that come with playing the game. Fifa 22 Features Key:

- Over 40 new players. For the first time in a FIFA game, you can customise your team and build your squad with over 40 new players and totally new animation systems for ball mastery, including the ability to plough opponents into the turf.
- Player run animations. The first real-time animal-like performance animations mean that your player more closely replicates their true player movement during play. With new Player Run animations, you can run as fast as you can to dictate the tempo of the game, with intelligent animation systems choosing the most exhilarating and athletic movement when on the ball, making every tackle and header a real-life experience.
- Play to the Style. Introducing Total Team Control, new Player Touch Controls and real-time reaction, and smarter team AI that won't just run through opponents, but will also intelligently switch play to a natural and efficient game rather than waiting for you to control the tempo of the match. FIFA Ultimate Team Feature Career Mode highlight reel.
- Real Player, All-New gameplay. Touch, skill, speed and intuition are all key to victory in FIFA 22. New Player Touch Actions see players perform pinpoint skill finishes, inspirational dribbles and flawless touches, with what have been described as "the most realistic player animation in EA SPORTS FIFA history." Whether you play in tight or freeplay, multi-touch, aerial duels and all-new all-skill Zones with intelligent AI mean that this new style of FIFA will appeal to a wide range of players.
- Completing skills. The explosion of new player touch and skill animations also mean that now finishing is completed instantly once control is gained, with key touches offering vastly increased realism and you can play closer to the glory of real-life, with all action controlled in real time to reflect the movement of your player.
- Energy flows. Managed attacking flows are more realistic and cover a wider area, providing more passing options based on the players on the pitch.

-
- Cutting edge skill. For the first time, player abilities can be boosted with or without a ball, allowing you to continuously upgrade your player every minute and control them on pitch impact.
 - Hyper-motion. Using over 40 real-life players from 23 different nations and over 50 real-life leagues, you can test your skills on-pitch

What's new:

- **PACE GAMEPLAY** We've made a dramatic shift from the haphazard dribbling that characterized our last few soccer titles to an emphasis on speed, ball rotation and individual skill. The more options available, the more you'll be able to shape the game to your favor. We've taken some steps to simplify FIFA Ultimate Team options.
- **PLAYER-EDUCATED DIRECT CONTROL.** Player-driven coaching and strategies - like "don't give the ball to X whenever you can't play a teammate directly into a dangerous situation" - have been implemented to help you level up. An AI Director will guide your teammates and manage strategy.
- **PLAYER BALANCING.** We've focused all of our stadium construction efforts on balanced teams where fans appreciate realistic rosters. We've analyzed fan feedback and applied football analytics to our AFLX series to achieve a consistently balanced performance
- **PLAY TOWER.** Make a run and all of your key players will help defend the lead
- **CONTRACT TRACKING.** Keep tabs on your players over time and get an update on their contract status at the end of the season
- **POWER TOOLS.** Guide your players tactically from the center of the field, introduce different formations, monitor the performance of every player on the pitch at the same time, and much more.
- **ULTIMATE POWER TRACKING.** Never miss another breakaway, long shot or first-touch counter again. If you anticipate and can react in time, your players will know where you want them to be.
- **LEGENDARY MANAGER.** Become Jurgen Klinsmann, then be challenged by literally everyone to see just how high you can climb in one of our most balanced FIFA games yet.
- **CONTRACT TRACKING.** Be immersed in the long-term relationship that is the life of a football manager. Keep a track on all your players to be alerted about their contract status at the end of the season.

-
- **LEGENDARY TRANSITION.** Quickswitch to the offense before the opposing defense knows what hit it. Plan movement as if your next action will determine the outcome of the match.
 - **FANTASY MODE**
