FINAL VERSION OF GAME
Tortoise GZ Compress

4HRS available in sound track

If you are getting early final version of game & we would like to get your feedback on sound track because of the time constraint.

EXAMPLE.

A common problem is whole game becomes background without being able to interact with it.

FULL VERSION of issue is this:

P1 - while walk through town P2 - background is game screen

Solution:

when P2 goes to an area with town enemy will be present and P2 will see the action to beat enemy so code would adjust P2's position and background of P1 would change to P2's action.

This would be ok if this was a simulation of something else.

In the case of game where player has to move and beat boss P2 may not beat boss, and as you would expect his action just adds to background.

So code of event is:

while moving:

if there is any items on ground take and move:

if such item is enemy and position of P2 is out of range then call event preventing event from happening, allowing player to wait while P2 and enemies get closer to each other, then when close enough both will encounter each other P2 will defeat enemy.

If enemy could be waiting in the same location, then they will suddenly shoot at P2 at the same time and both will hit

That could be frustrating even if you cant control shooting enemy.

A pretty common thing to happen in this scenario is P1 would dodge the bullet, then fall down on ground unable to get back up and P1 would be stuck in a place unable to revive.

P1 has a health bar and because they cant get up it will show that P1 is in danger of dying.

What's new in Flying Bacon - Soundtrack:

of a Romantic Movie" A mouse ran and gallivanted. Nobody dared to stop it. After a thunderous ruckus, the mouse set out. This was no place, for a picnic. Down the alley went the mouse. Nobody tried to stop it. In the depth of that dark night... there arose from the neighboring woods, a barking, a yelping, a whimpering, a whistling of dogs. They barked, they yelped, they whisked, they frothed, they barked. They barked on and on and on, until the sun rose and made them lose their edge. Don't waste time.... Why should you stop with so-so writing? All your love has fled from you. You haven't been rewarded for any effort. You're thinking of a girlfriend, When the guy's memory is firmly in place. Dry yourself, and let the summer come. Beautiful dawn brings the morning dew. You're still thinking of the same old story. Real cats dance on rooftops. That's what they are for, in the dark. If you let yourselves hang out, The sun will return your voice to you. The night's done with. The sun sets... and you hide in shame. Sit down to the table, and shut up. Never say boo to the bee. Oh go to your room! Before the cat's got your bed. "There are far too many mice running around." There are no mice to see with your eyes. So what if they can see with their eyes? For you alone, there's something to see. Come along, I know a way to make you Follow me, my friend. I'm not crazy! This is my secret, that nobody else knows about, Follow me, my friend. I'm not crazy! Mister FlufferFrog - The Soundtrack of a Movie The movie is what I really do. They're quite different from what others say They may be bad to my taste. I don't care for them a bit.
