essential features. The program can also be downloaded at this book's website at ``www.dummies.com/go/photoshoppedesigns``. You can save it to an external USB drive to use when you use Windows, or you can install it within your operating system. Its task-based interface makes it easier for beginners to learn. ## Getting Started with Photoshop Elements With Photoshop Elements, you can edit color and grayscale images, crops, images with or without text, add special effects and masks to your images, and develop and edit negatives. Photoshop Elements can be downloaded from the Adobe

website. You can also download additional elements that you can use to expand your capabilities. Note that if you need to work on a larger image, such as a small wall portrait you need for a flyer or other printed material, you should use Photoshop. You can use a browser on a PC, tablet, or smartphone to access and download images. The Windows 8.1 operating system, as well as the newest versions of Mac OS, support multiple monitors. Simply drag the image you want to work on into a new window on the monitor you want to work on. When you're done editing, simply

drag the image back out to the original window. This chapter uses the Photoshop Elements program as the software platform for the exercises in this book.

Property details A+ rental property in good condition with an older owner This lovely property has been on the market for a while without any interest and fortunately, a new owner has come along. The property, a 3 bedroom 2 bathroom home with an attached 2 car garage has a neat older owner who is looking to move back to the country and settle down. The property is currently rented by a third party for \$270 per week. For the first two weeks of July, there will be a short break by the owner,

but I am confident a long term tenant will be found as soon as he returns from holiday. The property is also ideally located within minutes of public transport, and is within close proximity to some of Australia's most beautiful national parks. This property doesn't need too much work and is ideal for a first home buyer. Call now.36582?
