This game is a turn based steampunk RPG set in the fictitious land of Lawless Lands. The game allows the players to play as either a dwarf, human, or half-elf. The players can choose from four different outfitter retailers to purchase their weapons and armour. The four outfitter retailers: Strothlheim (M), Guilanal (F), Sagerov (M), and Crossia (M). They are stocked with different weaponry and armour. Each armour piece comes with the ability to not only alter how the armour looks like but also what abilities the armour grants. The outfitter skins make the game feel more dynamic and more immersive. The players can change the colour, looks, and abilities of their armour and weapons as they wish to change outfits. There is a function where the player can change their skin to that of an enemy. This is useful for roleplayers who do not want their players to be affected by how the player looks. Players can purchase a default skin at an outfitter shop for a gold lords cost. The game can be played in both single player and multiplayer. *This game is 100% free and will never be needed to download a client patch to continue playing.* Suggestions: * The outfitter skins can only be obtained from their respective outfitter. The person you are outfitting should have the same alignment as your character. This does not work if the player has a rogue with alignment of evil. This is a problem. You will have to save yourself in the game world. * Outfitter armour pieces/weapons/outfits do not accept chaos, good, or undead. * You can change your outfitter at any time. * HUSTAN IS THE ONLY GAME CHARACTER WHO CAN ADMINISTER BLOOD. * Your outfitter pieces get unlocked first in the order you bought them. * You can wear different clothes. * You can't wear the same clothes for more than two days in a row. * You can put on different items for each race. * You cannot clothe two races in the same clothes. * Paired or mismatched arms would say something like : You have a double length sword and two hands. To those who are kind enough to download and play my game, I thank you for your support. Downloading the file does not make you free to play the game. DO NOT REMOVE THIS DISCUTIONAL
