**BEST OFFERS: IObit Smart Defrag 6 Professional 6.4.5.105 IObit Smart Defrag 6 Professional 6.4.5.105 Key**

**Features:Vascularized limb autografts after bone marrow transplantation. Vascularized limb autografts were performed in 16 patients after high-dose chemoradiotherapy (18 or 21 Gy**

---

irradiation) for metastatic malignancies, and in 10 patients with locally advanced tumors (18-22 Gy irradiation) to the lower extremities. The indications were pain, paresthesia, or functional impairment. Bone marrow was reinfused in 14 of 16 patients. There was no evidence of severe or lethal complication. Despite preirradiation peripheral blood counts and hematocrit, the patients underwent a median of three operations, because of minor or no wound healing. Our experience suggests that limb autografts may be performed under conditions of irradiation and bone marrow reinfusion.

The Toronto Zoo will host its first-ever Panda Cruise, in celebration of the zoo's 23rd anniversary. During the cruise from August 5 to 7, zoo guests will visit with pandas and the animals' handlers. There will be a meet-and-greet with the pandas, viewing the pandas' enclosure, educational talks, plus activities for children, according to the Toronto Zoo's website. The zoo has touted Panda Cruises for its 23rd anniversary, saying it will "expedite the education and conservation of pandas in their natural habitat." "Being able to interact with the pandas is an opportunity that we cannot miss and will do our best to ensure the pandas will enjoy meeting the zoo visitors," said the zoo's website.

Q: django: filtering of querysets using GET, or using GET for filtering? In Django 1.1, how do you filter by date, or is that too ambiguous? I'd like to be able to do one of two things:

</myapp/v1/entries/2008-11-21/>
