□

"Icario" is a classic arcade game series with a great story. The events in the story take place in the year 2430. In an age of "system overcomers" and "holly-skoal" politically-minded nations the "Icario" nation is left with a lingering after-image that is "caused" by a mysterious user of the mysterious "System". Now the player leads a fighter team, fight against the enemy, and try to find what is the truth behind the game. Features: 1. The Campaign Mode - you will be able to play through and experience the storyline, fight against the enemies, and experience the Icario world as it would be in the year 2430. 2. The Real-Time Battle - all battles will be controlled as a real-time simulation. There's no rushing to the action and holding of your fighter. When you press the fire button on your gamepad, you can dive in and enter a fiercely-fought dogfight. 3. The Upgrade System - there will be many upgrades for each fighter that you will get to enhance your fighter's fighting capability. 4. The Photo Mode - the player can capture beautiful real-time photo to share with friends. 5. The RPG Mode - Icario features an RPG-like gameplay. You can engage in battles, earn money, and buy fighters, armaments and equipment with the money. 6. The Arcade Mode - try to clear the game's arcade mode. 7. The Mission Mode - clear the mission mode to unlock new fighters. 8. The VIP Mode - play with your own fighter About This Game For those of you familiar with the arcade game of the same name, Icario comes with a nostalgia-based difficulty and very similar gameplay; the game is highly recommended if you enjoyed the original arcade game. If you are new to the game, Icario is a hardcore real-time arcade game and a simulation sim for FPS. The game starts off with a prologue style mission where you meet up with your wingmate. You must escort your wingmate to a remote system to protect him as well as you. During the journey you will battle enemy fighters and after a while, you will enter into enemy territory, where you will have to fight bosses (bosses that are fighters themselves.) From the legendary arcade game Icario we're bringing you the Icario: Rebirth
