If it has 32 bits of ram, and i have a 64 bit OS and game say Fallout 3? What if I install the.exe file,and it runs, but the graphics are slow? Hi, I can't open the localhost page. I have the software and i'm sure about it. I've tried different things that already make me think that the problem isn't the software. But i can't fix it (of course i can load other pages, but that is not what I'm looking for). The software has a full version
