## **Warfront Defenders (2022)**

'Ingression' is a first-person shooter/adventure set in the dark fantasy world of 'The Fold' where the player takes on the role of a young man starting his job as a temp exterminator for an assignment to the massive, hidden Eikherad Stave Church. After arriving, you soon realize that nothing is what it seems and you need to question your own sanity, for there are creatures in the world that are not quite human, and you soon begin to uncover stories that are not entirely stories. Those who call the place 'The Fold' are a race from the past; a long ago people and their civilizations that have lost their place in this world. You meet some of them as they fade in and out of existence, but you soon learn that they have been here long before you were born, and now they want what you have. You quickly learn that you are not alone in this strange world. The sense of unease and dread soon permeate your whole existence and with every dark secret you uncover, it is becoming clear that it won't be long before you have to make a difficult choice. Can you keep your wits and become strong enough to protect this world from the ancient evil lurking beyond the veil? Key Features: - Discover the world of 'The Fold' in a very Lovecraftian atmosphere - An amazing story in a very Norwegian setting - A large variety of puzzles, mysteries, creatures and dark secrets - More than 20 main locations and many secrets to uncover - Cooperative mode - FPS-action - Powerful abilities and skills - A fully voiced dark fantasy-adventure with a hint of horror - Steam Cloud Support - Available in 3 languages: English, German and French. 'Ingression' is a multi-award winning indie game that has been a passion project for some of the OG's at Frogwares. The game was a labor of love and has received a lot of support, but as a matter of fact, the effort and love it has received means it is a commercial financial risk. The game will be published through the Gameforge distribution service and is releasing for PC/Mac/Linux. You can find it at [www.gameforge.com](http://www.gameforge.com) 'Ingression' will be available for a suggested retail price of 19,99 EUR / \$19.99 USD / 21,99 NOK. ## **What's new:**

**AUTHOR'S NOTE: The Feather Of Praying is not strictly speaking a fetish but a metamorphosis technique. It is a phenomenon where the body becomes like that of a pet such as an exotic bird. The body takes on the form and the characteristics of another form. It's quite gorgeous really. It is my understanding that it has been around since the ancient Indians of America, giving their wearers an alleged power over the spirit world, which it was said could be obtained by gazing down into the crevices of the eye sockets whilst making the wish to let your spirit fly away. So here's the problem. I don't know how I can use this fetish, for it is certainly not like a conventional fetish. So I am pondering on this as I await for my Essence of Rose petals to be available. Somehow it feels as if I am slightly or deeply checked out of it all now. I feel shy and awkward. I don't quite know what to think of it. I have even slept on it for a long time by placing a cloth under my pillow to prevent my sleeping while on the bed and under the Feather. But I am beginning to find it hard to let it all happen itself. The practice of the simple breath is getting harder and harder by repeating the phrase Simple Buddhist Breathing until sleep descends. I hope to be back soon, or at least the next time. In the meantime, I am staring into my closet as if there is something hiding in it. Love to you all, X TO EDIT: I am still ready. ~~~ As I feel my eyes closing, I make the wish to send my spirit to a place it has never been before. I feel a slight chill as if there is more magnetism in the air. The bed licks me as my feet dance on the floor. As a snail, I crawl my way up the bureau bedspread. I feel my arms and legs becoming weightless. They start to dissolve into a warm grey mist. It is cooler in the bedroom now. I am floating freely. I look down at the ceiling, it lies above me, and I can almost touch it. I am running now, flying high. Green and yellow blobby orbs appear at the**

I do think if we keep going like this, we'll have a winner... might even make it to the public choice awards! ...Yeah...yeah... yeah... a bit of a shorter title this time. As for the game itself, it's a bit slow, being an isometric first-person 'gameplay' with a tower defence/shrinking tile platform game in one - it might be interesting to see how that turns out as I've never really done anything like it before, so I'm also very curious as to how that will play out. The exploration mechanics are interesting, and the idea of giving you options with which to command your own fate really adds a great deal of depth to the game - and as a result I would definitely be happy to experiment with it. I'll be adding this to my list of must-play, and would be happy to suggest it to anyone.Q: Show non-negative integers by adding at least one positive to a given set of odd numbers Given a set of odd numbers  $\{a_1, a_2, \dots, a_n\}$ , how do I prove that there exists at least one positive integer  $a_j + b$  that is not in the set of odd numbers? A: This is not true. For example:  $a_1 = 3$  and  $a_2 = 5$  are odd numbers and  $a_1 + a_2 = 8$  is
