Adobe Fireworks Adobe Fireworks is an image-editing program to complement Photoshop. Its main features include: The ability to quickly build complex graphics by using _macro animation,_ which is a special kind of animation. You can build visual effects like flipbooks of images. It also

includes the ability to publish your work as a flat file that can be used as a source for another program or used with the website package. The ability to apply multiple filters and effects to the same image. The ability to save your work as a PDF file. If you are familiar with the Adobe Illustrator program, Photoshop Fireworks makes it easy to work with vector illustrations. With the CSS and HTML capability, you can turn Fireworks images into web templates.

Nokia 4G Review – Is This a Good Value Phone? The Nokia 4G is the company's latest entry into the midrange mobile phone market and offers Nokia fans what many have been waiting for, a 4G capable device with a metal finish and premium feel. Will the 4G handset deliver as promised? Read on to find out!

Overview The Nokia 4G comes in at an attractive 149.8mm tall with just a 5.5mm thickness and a weight of 112g. Nokia has mounted the 4G handset with a 13.5-megapixel camera and has also doubled the capacity of the 2GB SD card with the same. **Nokia 4G Design** The Nokia 4G is relatively elegant and has a premium feel. It has a matte, vibrant display and does not feel cheap. The one problem is that the volume

rocker and other controls can be a little tricky to use in such cramped space. The only other gripe we have with the phone is that the back of the device is slightly shiny, although, we understand that is because of the metal finish. All in all, though, the 4G looks good with its sleek black design.

Nokia 4G Display and Features

The 4G boasts a 5-inch IPS display with a resolution of 1280 x 720 pixels and a 319ppi pixel density. It is crisp and colourful and displays images very well. There is a standard capacitive home and back keys along with a volume and a sleep/wake slider and the camera is located at the top-left corner. The phone can be operated in a variety of different ways and is easily able to handle numerous things, though, we did notice a lack of multi-tasking features, so if you are a multitasker you may find this phone

limiting. The Android 4.1.2 operating system feels like the latest version of Android, it runs smoothly and is simple to use. However, it still does not have features like expansion slots and microSD cards. Nokia 4G Camera
The Nokia 4G has a 13.5-megapixel camera on the rear with an f/2.0 aperture and has a dedicated LED flash. The camera takes photos well and is more than adequate for web sharing. The phone also has a new Nokia camera app with lots of new features, including an improved gallery that makes browsing easier, as well as manual and automatic modes

What's New in the?

Catherine Nichols, the former bartender and bartender at Neverland in Cabot Park, said she was terminated Friday for speaking up

about what she said was the corner store's lack of action on litter and problem customers. "I always wait until they have gone in the evening to clean up," said Nichols, whose job was to clean the patrons' tables. "The morning would be easier because it would just be emptier." The cleanup is one of the first responsibilities Nichols said she took on when she began working at Neverland, also known as Ragin' Cajun, on Delaware Avenue. There are two reasons she said she was terminated, including that it was coming off the Christmas break, and the manager told her that she was "never going to work there again." She also was told there was no room in the kitchen for her, Nichols said. One of her coworkers, Katrina Kapsimeris, said she heard about Nichols' termination from the manager on Friday.

"She's being punished for trying to help the business," Kapsimeris said. Kapsimeris said she would sometimes use the dumpster to keep dirty dishes. "I'd cover them with a tablecloth if it was a busy night," she said, adding that the manager would not let her do so. Kapsimeris said she and her husband both work at the shop, but she has been there for three and a half years. Nichols said she thought she could trust the store to do its part, and that she liked the store. She said that as she would walk by it in the morning, the store would have a lot of trash in it. "There would be bottles of liquor, beer bottles and cigarette butts," she said. Nichols added that when she last went into the store, there was not much to clean, saying it looked like a "different store." Kapsimeris said they will probably pick up the trash Monday. As for the

dumpster, she said, "We don't like it, but we don't know what else to do." Nichols' manager, Mary Gech-Pilzer, could not be reached for comment Friday.Q: Python script error - contains zero length field" while trying to unzip a file I am trying to
