If you are interested in knowing more about our company please visit our company profile at Setting style for only one DIV I'm adding a class to an IMG element with this tag: This style applies to it: .fade { opacity: 0; } But it still shows the default color when the page loads. How do I add this style only to that IMG element? I tried using .fade {... } for this element, but that doesn't work: A: Use .fade:first-child { opacity: 0; } The :first-child selector will only select the first child element. Also, don't use inline styles, just write .fade { opacity: 0; } , in such a way that we can query not only individual TEMIs, but also groups of TEMIs involved in the same reaction. The description

GAME: I have played so many rpgs but I have never felt this kind of a feeling. I know I am not alone in saying this. By the looks of Elden Ring, it will definitely give the new players an easier entrance to the world of rpg. The anime style graphics really compliments the game play. The interaction of the character is more realistic than in most games. The game is not as hard as some other rpgs. Granted it is a new game and we all know that the more the better. But I'm willing to give this a try. Plus it is on the cheap and gives you everything you want to know. PROS Good basic game. Good unique interaction Character creation. CONS Good graphics and anime art style Easy but still challenging. RATING - GOOD UPC : 079924215381 2004-12-13 03:11 PM A QUESTION FOR THE ANIME PEOPLE I was wondering if you could help me out please. I am really liking the art style of this game for the most part, but I was wondering, does anybody know if the Elden Ring is actually a game? I'm not getting the anime flow or the music that goes with it. Why are there spelling errors in Japanese? What is the name of the game in Japanese? Is there such a thing as an anime game or is it just a cinematic? I am thinking about buying this game but I am confused as to what it is. Is it an anime game? If so then I will not buy it, if not then I am not getting it? I was wondering if anyone knew what it was? Thank you so much. _SORRY_ GAME: I have played so many rpgs but I have never felt this kind of a feeling. I know I am not alone in saying this.
