Stable isotope imaging mass spectrometry: a novel approach for proteomics research. Despite the frequent use of 2D-PAGE in the proteomic community, this technique is largely limited to a qualitative assessment of protein expression and post-translational modifications. Stable isotope imaging mass spectrometry (SID) can be used to assess changes in protein expression as well as post-translational modification, in addition to co-migration of post-translationally modified peptides. We describe the methodologies necessary to conduct SID, and briefly review some of the major applications of this new technology. FUT v21.0 brings a major overhaul to the Ultimate Team experience. Every piece of player data has been reengineered to be more accurate and realistic. We've also introduced numerous additions and improvements that make FUT more interesting and entertaining. FUT Draft - FUT Draft is the new and improved style of FUT Draft included in FIFA 22! You'll now draft players in specific positions, and you'll also see their ratings reflect changes in their past games in real-time. We've built in measures to remove weaker or overpowered positions and make sure there's a diverse set of matches available at all times. Kick-Off Moments - Kick-Off Moments are now more like our experience on the pitch, with multiple action shots and improved player models. We've also added subtle player interactions and unique camera angles to bring that pitch feel home. Share The Moments - Share The Moments is a new section in My Careers that enables you to share the best moments of your career, starting from any level. You can share your best goals and assists, and also highlight the games, players, and moments that had the greatest impact on your career! Customise Team Uniforms - In-game customisation tools give you more design freedom when you choose the look of your players. Be it individual customisations or Team uniforms, FIFA 22 comes with a deep assortment of options. Nations and Club World Cups - The addition of seven new nations to the game, along with all their historic achievements and special kits, places both old and new on the map and provides a fresh challenge. Now players can compete on familiar ground or discover a new challenge. The World Tournament Mode - This new experience has been designed to give you a true sense of playing FIFA for the first time. Intuitive gameplay and user interfaces, combined with state of the art engine technology, ensure this is the most authentic and exciting FIFA ever. The Journey awaits. HIGHLIGHTS Authentic gameday atmosphere - See the differences between a Champions League or Europa League match in person. You'll be surprised at how detailed the stadiums are and the quality of the players. Grow from Division 1 to the Champions League - The World Tournament experience has been overhauled and has a deeper meaning to the overall mode. Players get a taste of what it's like in the Champions League, with high quality matches, cups
