Even if it's just a refreshed and slimmer iPad Air 2 with high-resolution screen and a higher-resolution camera, it would be a welcome addition. And while we don't expect a new "iPad 4" to be announced anytime soon, the next-generation device could eventually arrive with a much bigger display (12.9-inch) and better design than the current iPad mini.

SH2 domain-containing protein 1 (SH2D1A) is a member of the SH2D family of proteins. SH2D1A is overexpressed in breast cancer and is associated with poor survival. The aim of this study was to examine the effect of the trastuzumab-induced phospholipase Cgamma-1 (PLCgamma-1) protein interaction on PLCgamma-1 activity in HER-2 positive breast cancer cells. Using immunoprecipitation and immunoblot analysis, trastuzumab was found to induce an increase in the interaction between SH2D1A and PLCgamma-1 in SKBR3 cells. Trastuzumab was also found to increase PLCgamma-1 activity in SKBR3 cells, and this effect was abolished by anti-SH2D1A antibodies. In addition, the level of PLCgamma-1 activity was found to be reduced in HER
